<sup>1</sup>Enhanced Productivity Mode | <sup>2</sup>Media characteristics vary. If the media you are about to use is not listed in the Media Locator, HP cannot guarantee performance and we recommend that you test it prior to use. | <sup>2</sup>Grain direction: Substrates lower than 130 gsm require short grain direction; Substrates higher than 300 gsm require long grain direction; Substrates in the range of 130 gsm to 300 gsm can use both short and long grain directions | <sup>3</sup>PrintOS Color Beat, HP Indigo's built-in color automation tool, allows print service providers to reach G7\* Targeted Compliance of their digital presses and submit for G7 Master Qualification by Idealliance at the touch of a button. This process has been officially and independently verified by Idealliance. | G7\* is a registered trademark of Idealliance.

## MADE FOR THE WAY YOU WORK

It's easy to add, intuitive to use, and quick to contribute with print quality that matches your offset press, and fits seamlessly into the workflow of your shop.

It's ready to be dropped into your facility and work in perfect harmony with your offset press.

- Looks and feels like offset, on the broadest media range
- Ensure highest HP Indigo image quality and unmatched color consistency through non-stop color calibration
- Experience robust and highly predictable paper transport through offset like gripper-togripper architecture
- Guarantee continuous manufacturing through intuitive and efficient workflow solutions

## HP Indigo 100K Digital Press

## 6000 SHEETS PER HOUR

UP YOUR GAME WITH NON-STOP PRINTING Produce innovative jobs back-to-back, with true non-stop digital print capabilities.

- HP Indigo 100k Digital Press provides high reliability and predictability which are expected from a press that is targeted to the highest production volumes
- Achieve true non-stop digital print through advanced automation, enabling continuous feeding, continuous stacking, and continuous color calibration without interrupting production
- Immediate switchover between jobs with different media types with multiple input and output media sources

## UNPRECEDENTED PRODUCTIVITY

Rely on the most predictable production cell, generating **the highest digital B2 sheets throughput in the market** (over 2M B2 sheets per month)

## REWRITE THE RULES OF PROFITABILITY

Get ready to rewrite the rules for total cost of ownership. Increase margins on short run work, and rededicate your offset presses to running higher profits on the long runs they were made for.

Reduce labor costs with a highly automated press allowing multi-press operation by a single operator

Reduce plate volume and aluminum consumption through short run volumes migration

Ensure press uptime and reduced service costs with Al-driven serviceability

perfect gang.

Deliver faster. Reduce

Introduce same day

time waiting for the

delivery. Do not waste

makeready time.

Save at the bindery as sheets come out collated from the press

Reduce paper waste

## HP Indigo LEP TECHNOLOGY

The unique combination of HP Indigo ElectroInk, Thermal Offset Transfer and Direct Contact Transfer work together to produce an extraordinary level of print quality that looks and feels like offset. A single technology for the broadest set of applications.

The unique combination of unmatched color and ink capabilities with superior print quality on the broadest media gamut, delivers a wide range of high-value applications enabling profitable business growth.

Exploit the best of both worlds through an optimal coexistence of analog and digital technologies, driving profitable growth.

HP DIGITAL PRESS

#### Transform

- Produce short runs more economically due to elimination of makeready and plate costs
- Move the right jobs to digital where they are more efficient (time) and economical (cost)

#### Optimize

- Optimize existing digital work leveraging larger sheet sizes
- Reduce the number of sheets and impressions required per job by maximizing imposition efficiencies

#### Augment

- Seize new business opportunities with digital value; for example, large data-driven programs with variable data and personalization applications
- Bring in new revenue and profit streams

#### The HP Indigo 100K Digital Press releases 46% of conventional press hours

OVERALL OFFSET PRESS EFFICIENCY (1.15:1)

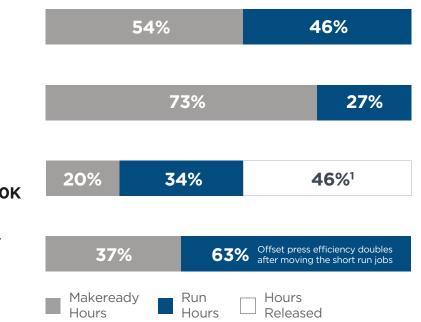

#### SHORT RUN JOBS CONVERTED TO THE INDIGO 100K (2.74:1)

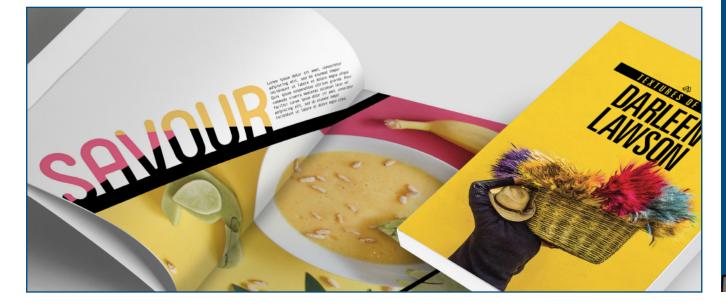

FREEING UP CAPACITY ON THE OFFSET PRESS DUE TO JOBS CONVERSION TO THE INDIGO 100K (0.59:1)

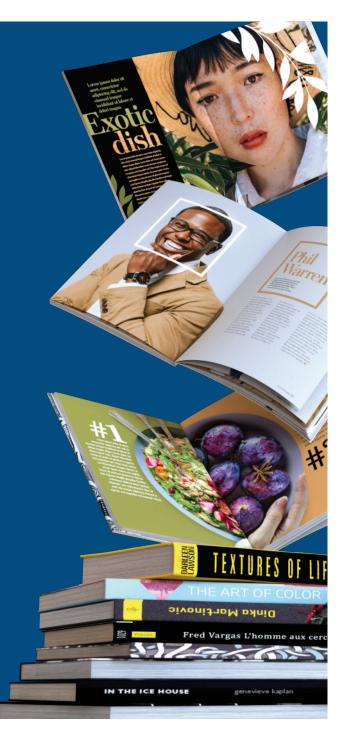

#### NEW OFFSET PRESS EFFICIENCY

(0.59:1)
