

# Ultra 7000 SHD

The Scodix Ultra 7000 SHD is a high-performance digital embellishment press that enables printers to expand into new markets with premium, value-added applications. Advanced embellishment across B1 (41") rigid and corrugated packaging formats, as well as paper substrates, creates visually striking, tactile print products.

## Key Benefits

### Unmatched Media Versatility

A fully integrated platform capable of processing a wide range of substrates, including corrugated cartons, Dibond, Forex, acrylic, coated / uncoated paper, with / without CMYK, plastics, laminated, leather, transparent and reflective materials.

### Premium Technologies

- **DTB (Direct To Board Embellishment):** Digital embellishment applied directly on Rigid and Corrugated substrates
- **SHD (Smart High Definition):** Fine details as small as 4-point text.
- **MLE (Multi-Layer Embellishment):** Up to 7 polymer layers in a single run for impactful 3D textures.

## Features & Specifications

- **Scodix SHD:** Sharp lines and fine details for high-definition precision & quality.
- **Revolutionizing Uncoated Substrate Embellishment:** Scodix leverages eco-friendly MLE (Multi-Layer Embellishment) technology to effortlessly craft unique designs on uncoated media, unlocking limitless creative possibilities.
- **Scodix Sculpture:** Unique 3D textures using multi-layer technology.
- **Variable Data Embellishment (VDE):** Personalized embellishments for targeted marketing.
- **Scodix RSP™ Technology:** 4-CCD RSP™ camera system for automated perfect alignment.
- **High Productivity:** Up to 780 sheets per hour (SPH) for rigid and corrugated applications and up to 1,310 for paper.
- **17 Embellishment Applications:** Includes foil, embossing, glitter, metallic effects, security and more.
